

CLENZ O₂ CRETE™

PRODUCT DESCRIPTION

Clenz-O₂-Crete™ is a scientifically formulated masonry surface cleaner and restorer. Clenz-O₂-Crete™ was designed to work with mother nature to clean and restore masonry surfaces without pressure washing. Clenz-O₂-Crete™ contains no bleach and leaves no toxic residue. Clenz-O₂-Crete™ needs no scrubbing. Removes black algae staining in swimming pools.

DIRECTIONS

1. Preparation: Remove any loose dirt or debris from surface before applying Clenz-O₂-Crete™.
2. Mixing the Activator: Prior to application, add the liquid activator to the Clenz-O₂-Crete™ solution. Stir or gently agitate mixture for a few minutes. If mixed in Clenz-O₂-Crete™ container, DO NOT REPLACE CAP AFTER MIXING. Use mixed product within 10 hours.
3. Application: Using a plastic garden sprayer, apply activated Clenz-O₂-Crete™ solution, liberally, on to the surface to be treated. That's it, let mother nature do the rest. Within a few hours, the black organic staining will turn brown and over the next few weeks all staining will disappear.
4. To remove oil & grease stains, use Greenflow's Orange Blast™.
5. Avoid contact with grass & plants.

Coverage Rate: 1-gallon / 200 sq. ft.

FOR USE ON

- Concrete
- Stucco
- Swimming Pools
- Brick
- Block
- and other masonry surfaces
- Clay tiles

DANGER

Hazard Statements: Causes severe skin burns and eye damage.

Precautionary Prevention: Do not breathe mist or vapors. Wear eye/face protection.

Response: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call poison center/doctor.

Storage: Store away from incompatible materials.

Disposal: Dispose of contents/container in accordance with local/regional/national international regulations.
